

VACUUM PYCNOMETER (A-490)

ASTM D204 • EN 12697:5 • AASHTO T-209

- Used to rapidly determine the asphalt content, bulk specific gravity of aggregates, the specific gravity of bituminous compacted road mixtures and the percent air voids in the sample.
- Vacuum pump must be ordered separately.

Vacuum Pycnometer (A-490)

TECHNICAL SPECIFICATIONS

- Minimum vacuum required: 30 mm/Hg
- Vacuum pump must be ordered separately.
