

■ WATER DISTILLATION UNIT (G-045)

- Used to distill water for laboratory purposes with a capacity of 3 liters per hour
- The inner chamber is made of stainless steel
- The exterior casing is made of aluminum with stoved enamel finish
- Equipped with a built-in manometer for pressure control on the input water

Water Distillation Unit (G-045)

● TECHNICAL SPECIFICATIONS

- 3 lt of distilled water output capacity per hour
- Stainless steel cylinder heater
- Internal structure made of stainless steel
- Outer casing made of aluminium with stoved enamel finish
- Input water pressure controlled by built-in manometer
- Thermostatical safety system
