

BURETTE (W016)

Category: Lab Tools

Product Code: W016

Category: LAB TOOLS

Sub-Category: GLASSWARE

-
- A burette in engineering testing laboratories is used for precisely dispensing and measuring the volume of liquids, typically in titration experiments. It allows for accurate

control of the liquid flow, making it essential for chemical analyses, such as determining the concentration of solutions.

ORDERING INFORMATION

Item	Code
BURETTE - 10 ml	W016G010H
BURETTE - 25 ml	W016G025H
BURETTE - 50 ml	W016G050H
BURETTE - 100 ml	W016G100H

Keywords: burette, W016 burette, ALFA Testing Equipment, laboratory glassware, titration equipment, liquid dispensing tool, engineering lab equipment, chemical analysis
