

COMPRESSOR (G701)

Category: Lab Tools

Product Code: G701

Category: LAB TOOLS

Sub-Category: LAB TOOLS

-
- Compressors in engineering testing laboratories are essential for providing a reliable source of high-pressure air. They power pneumatic tools, automate testing equipment,

assist in sample preparation (e.g., cleaning or drying), and ensure consistent operation of systems requiring compressed air. This improves efficiency, accuracy, and repeatability in various testing procedures.

ORDERING INFORMATION

Item	Code
COMPRESSOR - 8 bar / 25 lt	G701X025U
COMPRESSOR - 8 bar / 50 lt	G701X050U
COMPRESSOR - 300 lt	G701X300V

Keywords: laboratory compressor, G701 compressor, ALFA Testing Equipment, high-pressure air supply, pneumatic tool compressor, testing equipment compressor, 25L compressor, 50L compressor, 300L compressor, lab air compressor, engineering lab compressor, compressed air system, lab tools, air compressor for testing
