

HEAT-RESISTANT GLOVES (G725)

Category: Lab Tools

Product Code: G725

Category: LAB TOOLS

Sub-Category: LAB TOOLS

-
- Heat-resistant gloves in engineering testing laboratories are used to protect hands when handling hot equipment, samples, or containers, such as during oven drying or heating

processes. They ensure safety and prevent burns during high-temperature tasks.

ORDERING INFORMATION

Item	Code
HEAT-RESISTANT GLOVES	G725X001H
RUBBER GLOVES	G725X002H

Keywords: heat-resistant gloves, G725 gloves, ALFA Testing Equipment, laboratory gloves, high-temperature gloves, oven safety gloves, lab safety equipment, thermal protection gloves, engineering lab tools
