

HOT AIR GUN (G704)

Category: Lab Tools

Product Code: G704

Category: LAB TOOLS

Sub-Category: LAB TOOLS

-
- A hot air gun in engineering testing laboratories is used for tasks like drying samples, removing moisture, softening adhesives, and preparing surfaces. It provides controlled

heat, which helps speed up processes and ensures better accuracy and consistency in test preparation and results.

ORDERING INFORMATION

Item	Code
HOT AIR GUN	G704X001U
WARM AIR DRYER	G704X002U

Keywords: hot air gun, G704 hot air gun, ALFA Testing Equipment, laboratory hot air gun, sample drying tool, adhesive softening tool, surface preparation heat gun, lab heat gun, engineering lab hot air gun, warm air dryer, controlled heat tool, lab tools, test preparation equipment
