

HOTPLATE (G711)

Category: Lab Tools

Product Code: G711

Category: LAB TOOLS

Sub-Category: LAB TOOLS

-
- A hotplate in engineering testing laboratories is used to heat samples or solutions uniformly during tests. It is essential for procedures like drying, mixing, or chemical

reactions, ensuring controlled temperatures and consistent results.

ORDERING INFORMATION

Item	Code
RECTANGULAR HOTPLATE - 30 x 30 cm	G711X001U
RECTANGULAR HOTPLATE - 35 x 45 cm	G711X002U
RECTANGULAR HOTPLATE - 40 x 60 cm	G711X003U
HOTPLATE w/ MAGNETIC STIRRER	G711X004U
ROUND HOTPLATE - Ø 170 mm	G711X005U
ROUND HOTPLATE - Ø 170 mm (2-Place)	G711X006U

Keywords: hotplate, G711 hotplate, ALFA Testing Equipment, laboratory hotplate, lab heating plate, sample heating device, drying hotplate, mixing hotplate, chemical reaction hotplate, rectangular hotplate, round hotplate, magnetic stirrer hotplate, 30×30 cm hotplate, 35×45 cm hotplate, 40×60 cm hotplate, Ø170 mm hotplate, dual-place hotplate, lab tools, engineering lab equipment
