

MOISTURE TIN (G720)

Category: Lab Tools

Product Code: G720

Category: LAB TOOLS

Sub-Category: LAB TOOLS

-
- Moisture tins in engineering testing laboratories are used to hold soil or material samples during oven drying for moisture content determination. They are durable, heat-

resistant, and help ensure accurate weight measurements before and after drying.

ORDERING INFORMATION

Item	Code
MOISTURE TIN, with LID - Small - Ø 55 x 35 mm	G720X001H
MOISTURE TIN, with LID - Medium	G720X002H
MOISTURE TIN, with LID - Large	G720X003H

Keywords: moisture tin, G720 moisture tin, ALFA Testing Equipment, laboratory moisture container, soil moisture tin, sample drying tin, oven-drying container, moisture content determination, lab tools, engineering lab equipment
