

COMPRESSION TESTER for IRON/STEEL SAMPLES (M001)

Category: Mining & Coal

Product Code: M001

Category: MINING & COAL

Sub-Category: MINING

- Used for determining the strength of iron/steel samples by compressing it vertically
 - Fully automatic, controlled by computer
 - Used to determine the length change by compression
 - Built on 4 columns
 - Special upper and lower platens
 - Automatic cut-off in the door is opened
 - The LCD indicator, during the test, shows the following:
 - Load/ shortening graph
 - Special application if shortening: 1/2 or 1/3
 - The length change is readable with 0.01 mm
 - Stopping at desired travel or force
 - The data transferred to computer and all sample data is recorded
 - Automatic stopping when test is completed
-

TECHNICAL SPECIFICATIONS

- Fully automatic, controlled by computer
- Built on 4 columns
- Special upper and lower platens
- Automatic stopping when test is completed
- 220 - 240 V / 50 - 60 Hz
