

PLANETARY DISC MILL (M434)

Category: Mining & Coal

Product Code: M434

Category: MINING & COAL

Sub-Category: MINING

-
- Used whenever highest fineness is required
 - Robust model with 4 grading stations

- Short grinding time assured by centrifugal force of planetary mixing
 - Jars are made of hardened steel (also available in stainless steel upon request)
 - Used for grinding minerals, ores, coal, coke, alloys, bentonite, bones, cement clinkers, concrete, glass, gypsum, limestone, polymers, seeds ... etc.
 - Feed size is < 10 mm
 - Final fineness is < 10 microns
 - Speed control for required applications
 - Automatic cut-off energy if the cover is opened
-

TECHNICAL SPECIFICATIONS

- Robust model with 4 grading stations
- Feed size is < 10 mm
- Final fineness is < 10 microns
- Speed control for required applications
- Automatic cut-off energy if the cover is opened
- 220 - 240 V / 50 Hz
